Each month we follow the field closely on the status of security and racial matters work by analyzing the backlog of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters cases in classifications 65, 100, 105 and 157. Status of these cases as of July 31, 1965, is set forth below.

Dear

Thank you very much for the suggestion that a particular item on Form FD-154 be placed in another location. I am pleased to advise you this proposal is being adopted and steps are being taken to place it into effect when this form is next printed.

The interest and initiative which prompted you to bring this matter to my attention are indeed appreciated.

Sincerely yours,

J. Edgar Hoover

NOTE: Suggests revision of Form FD-154 (Verification of Information on Security Index Cards) to place item, "Photograph on Security Index card is most current or best likeness of subject," on the lower portion of the form instead of the top part. Suggester advises the top portion is executed by a clerk from information on the Security Index card. The Agent completes the information on the lower portion of the form and he is the one who is qualified to indicate whether the photograph is the best likeness of the subject.

Training Division after consulting with the Domestic Intelligence Division agrees suggester makes a good point regarding this procedure.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

No Number SAC Letter 65-C, dated July 30, 1965, instructed the field to obtain prior Bureau authority for the utilization of concealed cameras in obtaining photographs of security subjects.

The field is required to maintain current photographs depicting a good likeness of Security Index subjects. These photographs are necessary not only for identification purposes during the investigation, but will be of vital importance if it becomes necessary to apprehend these subjects during a national emergency. In addition, photographs of these subjects are furnished to Secret Service. The Newark Office has requested Bureau authority to use this technique in obtaining photographs of three Security Index subjects. In all of these cases, normal sources for obtaining photographs have been exhausted.

RECOMMENDATION:

It is recommended that the attached letter be sent to Newark authorizing it to utilize concealed cameras for the purpose of obtaining the required photographs.

SECURITY INDEX - gen'l
SECURITY INDEX - CUBA
(SEMI-ANNUAL REVIEW AND ANALYSIS)

1. **Origin:** This program instituted November, 1960.
Purpose: To keep track of dangerous individuals having pro-Castro sympathies and who are engaged in activities considered inimical to the United States to insure they are neutralized in event of hostilities involving Cuba.
Scope: Program applies to two categories of pro-Castro Security Index subjects against whom appropriate action would be taken in case of emergency.
 - (A) Cuban Special Section (individuals on Security Index solely based on their pro-Castro activities or sympathies).
 - (B) Security Index tabbed C for "Pro-Cuban."
(Individuals placed on Security Index for other reasons such as members of Communist Party who by reason of pro-Castro activities and/or sympathies are considered dangerous in the event of hostilities with Cuba).

2. **Tie In With Other Programs:** Program is co-ordinated with over-all Security Index program. As of 9/30/65 339 individuals were tabbed "Pro-Cuban;" 235 individuals were included in "Cuban Special Section" of which 96 were aliens.
Magnitude: In the event of hostilities with Cuba, the government could immediately proceed to pick up those individuals listed on the Security Index who are Cuban aliens. We keep Immigration and Naturalization Service informed concerning the aliens and the Attorney General is having documents prepositioned against them which documents would facilitate their arrest by the Immigration and Naturalization Service should the eventuality arise.

3. **Administrative Control:** A Bureau supervisor has direct responsibility for following this matter and assuring field handles program properly. Accordingly, it receives a continuing review.
Adequacy and Currentness of Instructions: SAC letters 60-54 dated 11/22/60, 62-55 dated 10/5/62, 63-61 dated 12/17/63 and 64-58 dated 9/29/64 furnished the over-all instructions re program. Specific instructions concerning disaffection of United States citizens abroad were set forth in Bulet to all offices dated 9/17/64. With regard to Cuba, these instructions relate to individuals who have manifested disaffection from United States since 10/1/60. Instructions are current and complete.

4. Dissemination: Pertinent data re Security Index subjects is furnished Secret Service at field and headquarters level. Dissemination is also made to Department, State, Central Intelligence Agency and the military intelligence agencies. In those cases involving Cuban aliens, dissemination is also made to Immigration and Naturalization Service both at field and headquarters level. Instructions re dissemination were furnished field in SAC letters 64-48 (C) dated 9/29/64 and 65-10 (G) dated 3/9/65. Instructions with respect to dissemination to Secret Service were reiterated to the New York Office by letter dated 6/7/65 captioned "Nationality Group Coverage, IS-Cuba."

5. Past or Present Weaknesses: Program instituted in view of possible limited emergency growing out of situation existing between United States and Cuba in 1960. Program serves to more completely discharge our responsibilities in Security field as they relate to Cuba and to insure that these responsibilities are continuously being met. No present weakness in the program.

6. Contemplated Action: Program should be continued as now constituted.

SUBJECT: COAST GUARD SCREENING PROGRAM

Reference is made to _____ to _____ memorandum September 23, 1965, recommending that Liaison contact Coast Guard to determine the status of captioned program in view of the rather sharp drop in cases received from Coast Guard during 1965.

On September 28, 1965, this matter was discussed by Liaison with Lieutenant _____ Intelligence Division, U.S. Coast Guard. He advised that there is no policy change in this program at Coast Guard. He attributed the drop in case referrals to the fact that the backlog of cases created by the Parker versus Lester decision has been cleared up. Further, with the passage of years, the Legal Staff of Coast Guard has been able to more accurately determine those cases which merit screening procedures and cases which previously may have been considered are not pursued because of Coast Guard experience. Regarding future case loads, _____ stated he could not make an accurate estimate but believed it will be substantially lower than the previous average of 60 cases per year.

Field wide.

4. Magnitude

This is not a major program from the standpoint of manpower and cost.

COMMENTS:

On monthly basis Domestic Intelligence Division analyzes field delinquency existing in Security and Racial Matters Investigations and prepares memorandum setting forth results of this analysis. Where appropriate, Domestic Intelligence Division also prepares letters to field offices concerning existing delinquencies. At specific request of Domestic Intelligence Division, this material is filed in file (Security Index General) with subfiles for each field office.

Since correspondence concerning this matter is captioned "Delinquency in Security and Racial Matters Investigations" or "Delinquency in Racial Matters Investigations," the classifier has had to write out subject of file "Security Index General" on mail. Specific suggestion submitted by is not being adopted; however, as a result of suggestion, we have made arrangements with Domestic Intelligence Division that in preparation of correspondence concerning this matter in future, when they list file number, they will also list title of file which will eliminate necessity for classifier to write out title or conduct research to determine subject of file.

RECOMMENDATION:

That suggestion be referred to Training Division and that be advised as a result of her suggestion, arrangements have been perfected with Domestic Intelligence Division to eliminate necessity for classifier to have to write out subject matter on mail.

Dear

Thank you for your suggestion that a particular item be added to the Standard Sub List to facilitate its handling by the Classifying Unit. While your specific proposal has not been adopted, I am pleased to advise you that, as a result of your idea, in the future this correspondence will bear both the number and title of the file for which it is destined.

Your thoughtfulness and interest in bringing this matter to my attention are indeed appreciated.

Sincerely yours,

J. Edgar Hoover

NOTE: (Suggestion 384-86 dated 12/1/65)
Suggests Delinquency in Racial Matters correspondence be added to Standard Sub List under caption, Security Index, to save Classifying Unit necessity of writing out subject matter.

Files and Communications Division advises, while specific idea not adopted, as a result of suggestion, arrangements made with Domestic Intelligence Division to list both title and number of file to eliminate need for classifier to write out title or conduct research to determine subject of file.

SUBVERSIVE CONTROL SECTION
PROGRAM EVALUATION

SECURITY INVESTIGATIONS OF INDIVIDUALS

SYNOPSIS

Bureau responsibility in this field originated with Presidential Directives, the first one in September, 1929. Purpose is to identify potentially dangerous individuals who are affiliated with subversive movements. This program is field wide and is closely related to the Emergency Detention Program, which involves plans for the apprehension and detention of potentially dangerous individuals in the event of an emergency.

From November, 1964, through October, 1965, there was an average of 19,551 pending active cases in classifications 65, 100 and 105. This Section's principal case load falls within the 100 classification and during the same period averaged 8,000 cases per month. Instructions are up to date and administrative controls exercised over the field by tickler system.

Other programs arise from security investigations of individuals and include interviews with subversives. We consider an interview in each case. The Security Index contains 10,156 names as of October 15, 1965. An average of 4 Fraud Against the Government cases per month have been opened since November, 1964. Requests for availability of witnesses from Coast Guard and Defense continue high. The identities of 22 potential witnesses were made available during the period November 1, 1964 through October 31, 1965.

RE: SUBVERSIVE CONTROL SECTION
PROGRAM EVALUATION

DETAILS

1. Crisis

Presidential Directives, the initial one being issued in September, 1939, and since repeated on several occasions. These Directives charge the Bureau with the responsibility for investigation of individuals in the internal security field. It is the collecting agency of the entire executive branch for subversive information and has the responsibility of seeing that such information is distributed to those Government agencies having a legitimate interest therein.

2. Purpose

The identification and investigation of individuals who, because of affiliation with subversive organizations, may present a potential threat to the internal security in the event of an emergency and the development of evidence of violations of Federal statutes on the part of these individuals. If, during the course of a security investigation, it is determined that a subject does pose a potential threat to the internal security, he is scheduled for apprehension under the Emergency Detention Program by the inclusion of his name in the Security Index.

3. Scope

Field wide.

4. Tie in With Other Programs

Closely related is the Emergency Detention Program which deals with plans for the handling of individuals included in the Security Index in the event of an emergency. Also closely related are the various security programs of other Government agencies, such programs depending to a large extent on information developed by us and disseminated to such agencies.

Memorandum to
RE: SUBVERSIVE CONTROL SECTION
PERFORMANCE EVALUATION

5. Case Load

Basically, these cases fall in security classifications 65, 100 and 105. During the period November, 1964, through October, 1965, the average field case load in these classifications was 19,551 pending active matters.

The Subversive Control Section is primarily responsible for investigations of individuals under the 100 classification although we do have cases on individuals under the 105 classification, such as the affiliates of the Nationalist Party of Puerto Rico. During the 12-month period November, 1964, through October, 1965, there was a monthly average of 8,992 pending active matters in classification 100 throughout the field.

6. Magnitude

This program is major from the standpoint of costs and manpower and, as such, is referred to in the budget material.

7. List of Present Weaknesses

Close attention is given the entire operations in this field in efforts to insure that we are fully discharging our responsibilities thereunder.

8. Administrative Controls

The field is followed closely on its over-all delinquency in the three security classifications mentioned previously. This is handled on a monthly basis. In addition, we follow the field by tickler on pending matters in the field of which we have knowledge and we follow the field for submission of periodic reports in Security Index cases to insure that such are submitted when due.

Memorandum to
RE: SUPERVISIVE CONTROL SECTION
PROGRAM EVALUATION

9. Adequacy and Currentness of Instructions

Instructions dealing with security investigations of individuals are contained in Section 87D of the Manual of Instructions and are in a current status.

10. Over-all Value

Determination of identities of individuals who should be apprehended in the event of an emergency in order to minimize possibilities of espionage, sabotage and subversion. Dissemination of information of intelligence value to other Government agencies concerning individuals and matters in which they have a legitimate interest. Budget purposes.

OTHER PROGRAMS ENCOUNTERED IN WORK ARISING OUT OF SECURITY INVESTIGATIONS OF INDIVIDUALS

SECURITY INDEX

As noted previously herein, one of the purposes of security investigations is to determine the identities of individuals who, because of affiliation with subversive organizations, may be considered a potential threat to the internal security in the event of an emergency. When such information is developed, the name of the individual concerned is included in the Security Index.

RE: SUBVERSIVE CONTROL SECTION
PROGRAM EVALUATION

We presently have included in the Security Index names of 10,156 (as of October 15, 1965) individuals. Each Security Index case is thoroughly re-evaluated at least once annually at the Bureau and in the field to insure that the cases are sound in every respect should it be necessary to invoke the Emergency Detention Program. If it is found that the subject's activities no longer justify the retention of his name in the Security Index, immediate steps are taken to insure that his name is removed therefrom.

RESERVE INDEX

In June, 1960, the then Communist Index, maintained only in the field, was renamed the Reserve Index and a program of bringing the cases of individuals whose names were included therein up to date was instituted. We broke the Reserve Index into Section A and Section B. Section A contains a list of individuals who should receive priority consideration from the standpoint of investigation, interrogation or other action following implementation of the Emergency Detention Program. Section A cards are maintained at the Seat of Government and in the field. These cases are reviewed on an annual basis and brought up to date. We presently have included in Section A of the Reserve Index the names of 1,669 (as of October 15, 1965) individuals. Section B cards are maintained only in the field.

Section B, Reserve Index, cases are completely reviewed in the field on a biannual basis.

DISSEMINATION - INCLUDING CHECKS FOR AVAILABILITY OF INFORMANTS AND SOURCES

Security reports are disseminated to numerous interested agencies throughout the executive branch of the Government. By far the vast majority of such reports received are disseminated outside the Bureau. The responsibility of such dissemination

... states careful and thorough evaluation of each report to assure that it is absolutely accurate both in form and content. In April, 1964, we initiated a program of dissemination of letterhead memorandum in all Security Index cases to Secret Service in connection with its responsibilities for Presidential protection. Initial dissemination was accomplished by early June, 1964, and as names of individuals are added to the Security Index appropriate letterhead memoranda are submitted to Secret Service. In addition, we keep Secret Service advised of changes in the status of these individuals on a continuing basis.

We are continuing to receive a heavy volume of requests from various departments of the executive branch of the Government for the availability of witnesses appearing in reports previously disseminated for appearance at hearings being conducted by such agencies as the Department of Defense and United States Coast Guard in efforts to remove subversives from access to classified data and/or restricted areas.

During the period November 1, 1964, through October 31, 1965, the identities of 22 potential witnesses were made available to these agencies for possible utilization at hearings.

FRAUD AGAINST THE GOVERNMENT AND OTHER VIOLATIONS ARISING OUT OF SECURITY INVESTIGATIONS

One of the principal violations has been violation of the Fraud Against the Government Statute arising primarily from a subject's failure to list membership in a subversive organization when executing such documents as personnel security questionnaires. We have averaged opening 4 cases per month in this category during the past year and these cases are handled on one desk for

RE: SUPERVISIVE CONTROL SECTION

uniformity. The principal difficulty in connection with these cases has been the developing of witnesses other than current active valuable informants who can testify to a subject's membership in the prescribed organization.

In addition, we have under investigation a number of possible violations of Title 8, United States Code, Section 1105 (illegal travel) arising out of our operations in the internal security field. One conviction has been obtained, which is presently under appeal.

SUBJECT: SECURITY INDEX - 601

The Security Index files are maintained in Room in steel cabinets -- three for the Security Index cards and one for related files. Two keys are required to open these cabinets.

To insure maximum security with regard to our Security Index cards, the two keys which open the above cabinets are being kept in my desk under my immediate control in Room. These keys have been placed in a 3 x 5 box labelled "Security Index Keys."

Under present procedure, the keys are obtained each morning by a clerical employee prior to 9:00 a.m. on work days. After the cabinets in Room have been opened, the keys are returned promptly to my office and placed in the 3 x 5 box in my desk.

RECOMMENDATION:

That a copy of this memorandum be placed in the Weekend Duty Folder in your office in order that its contents may be available to the supervisors assigned to your office on nights, week ends and holidays. The latter personnel are reminded of the established policy that under no circumstances are the Security Index cabinets to be opened by clerical personnel during nonwork hours. They may be opened by individual supervisors only upon extreme emergencies and then only with your specific approval, the approval of Inspector or myself or persons acting in our absence. If under such emergency, recourse is had to the Security Index cabinets, under no circumstances may any card be removed.
